

VICTORIA PRIMARY COVID-19 CONTINGENCY PLAN

INFORMATION FOR PARENTS (2nd Letter)

PLEASE BE ADVISED THAT, AT THE TIME THIS LETTER WENT TO PRINT, SCHOOL REMAINS OPEN

Dear Parents and Carers,

Today, you will have received two letters home in relation to COVID-19 and our school's response to this. This is the **2nd LETTER.** The first letter had been copied and was ready to go out today. The 1st letter outlines the preparations that we had already put in place in school. I didn't think that this letter would need to follow on so quickly. So please excuse the amount of information being sent home at one time, however, this is a rapidly changing situation.

As part of our response plan, class teachers have prepared work for children to complete at home in event of a school closure. This work is to last over a two week period. If school closes for more than two academic weeks we will endeavour to provide more curriculum guidance to parents, possibly via the school website.

Your child will have brought home their pack of additional work today. Please keep this to use in the event of a school closure. In the event that school does not close, then please use the additional work over the Summer Holidays as re-cap and revision activities.

No additional reading books are being sent home. Please encourage your child to continue reading home books in the event of a school closure.

We will contact you via the school app in the event of a school closure.

Thank you for your continued support.

Mr C. Fulton
Principal
